LINSSEN
YACHTS

Hull Vane® optie voor Linssen 410 AC

prestaties

BRANDSTOF
BESPARING

25%

MET HULL VANE

- **ca. 25% lager brandstofverbruik**
zowel op lage als maximale snelheid
- Linssen 410 AC vaart **0,7 km/h sneller**
- Nog beter rendement **op ondiep water**
(minder ondiep-water effect)
- Nog beter rendement **in golven**
(vanwege "pumping effect")

EFFICIËNTIE = STILTE

- Minder hekgolf en minder motorgeluid zorgen voor **minder geluid op het achterdek**
- Meer vaarcomfort door **rustigere scheepsbewegingen** (minder stampen en minder "paaltjespikken")

comfort

klantervaring

Dear Pieter,

Following up on our telephone conversation from today I would like to say the following:

- My Linssen 410 AC (build spring 2017, one engine Penta D3-150) is now equipped with your Hull Vane® as we had discussed in Düsseldorf in January. The work was very well done by the shipyard of Boarnstream Yachts. I now navigated for 3 weeks in a row:
- I experienced a slight increase in speed of about 0.4 knots (which is as expected and not very important to me, but nice to have)
- I experienced an enormous increase in sound comfort as the wave is completely flattened behind the boat, and only the side waves persist now.
- I experienced also a tremendous increase in comfort due to an increase in stability. The boats movements are much more calm now. And believe me, I have tried it out in the IJsselmeer with constant 29 knots of wind and corresponding seas (my boat is equipped with a Raymarine wind vane)
- and finally, I experienced a substantial reduction in fuel consumption: when I go slowly I now use 3,5 to 4 l/h where I used to burn 5l/h and when I use more power as for instance in the North Sea in wavy conditions I now use about 8.5 l/h where I previously burned 10 to 12 l/h. At full rpm I use 28 l/h but I do not remember a comparable figure from before as I generally don't do that (it is a displacement boat after all).

I can confirm that I am very happy that I purchased the Hullvane from you in Düsseldorf. You have a great product.

Kind regards, Francois *[Owner of MY Amanzi]*
